

Weber wins 1st in state

Nathaniel Weber, a freshman at Maries R-I School, entered the Problem Solving Individual Scenario Writing competition. He wrote a piece about over-population that won first place in the state.

Weber's paper has been sent to the worldwide International Scenario Writing Competition. Scenarios must be set at least 20 years into the future, have a recognizable relationship to one of the five Future Problem Solving Program topics for the current year, and not exceed 1500 words.

Congratulations Nathaniel!
